ABOUT THE SANFORD LEGACY FOUNDATION...

**Our Mission...** To enhance the experience of students in Sanford’s Schools and Regional Technical Center by expanding opportunities beyond those provided through public funding.

**What is the Legacy Foundation?** The Legacy Foundation, a 501(c)3 organization, was created to allow individuals and corporations to provide financial and in-kind support to Sanford Schools.

**Why is the Legacy Foundation needed?** Construction of our new high school, technical center, performing arts center, and athletic facilities presents Sanford with a rare opportunity to provide an unparalleled educational experience for the Sanford community and York County.

Public funding for this project is considerable; however, portions of the project need private funding to support infrastructure and equipment. The state does not cover all costs associated with the new school. The foundation is seeking corporate and private partners to provide Sanford with the best educational facility possible. With your help, we can make it happen.

**Who is the Legacy Foundation working with?** The Legacy Foundation is collaborating with the Sanford Red and White Foundation, SHS Music Boosters and Sanford Alumni Association. Our work will impact every sector in our community.

**FEATURES OF THE NEW SCHOOL**

- Integrated technical and academic programs
- Uniquely configured into four career pathways: **Science & Technology**  **Health & Human Services**  **Arts & Communications**  **Business & Marketing**
- Hands-on STEM (science, technology, engineering, math) and fabrication labs
- Performing arts center with state-of-the-art technology
- Athletic complex featuring 2,000-seat stadium, 1,200-seat gymnasium, 8-lane track, baseball and softball fields, tennis courts and more
- Unique experiential learning labs offering services to the public, such as a restaurant, salon, greenhouse, automotive center and retail bank
